CodeNinja

Hybrid Intelligence To Navigate Your Next

CODENINJA

CODENINJA

Mission

CodeNinja's mission is to optimize the world's digital and physical infrastructure using software, ai and customer-centric global delivery model
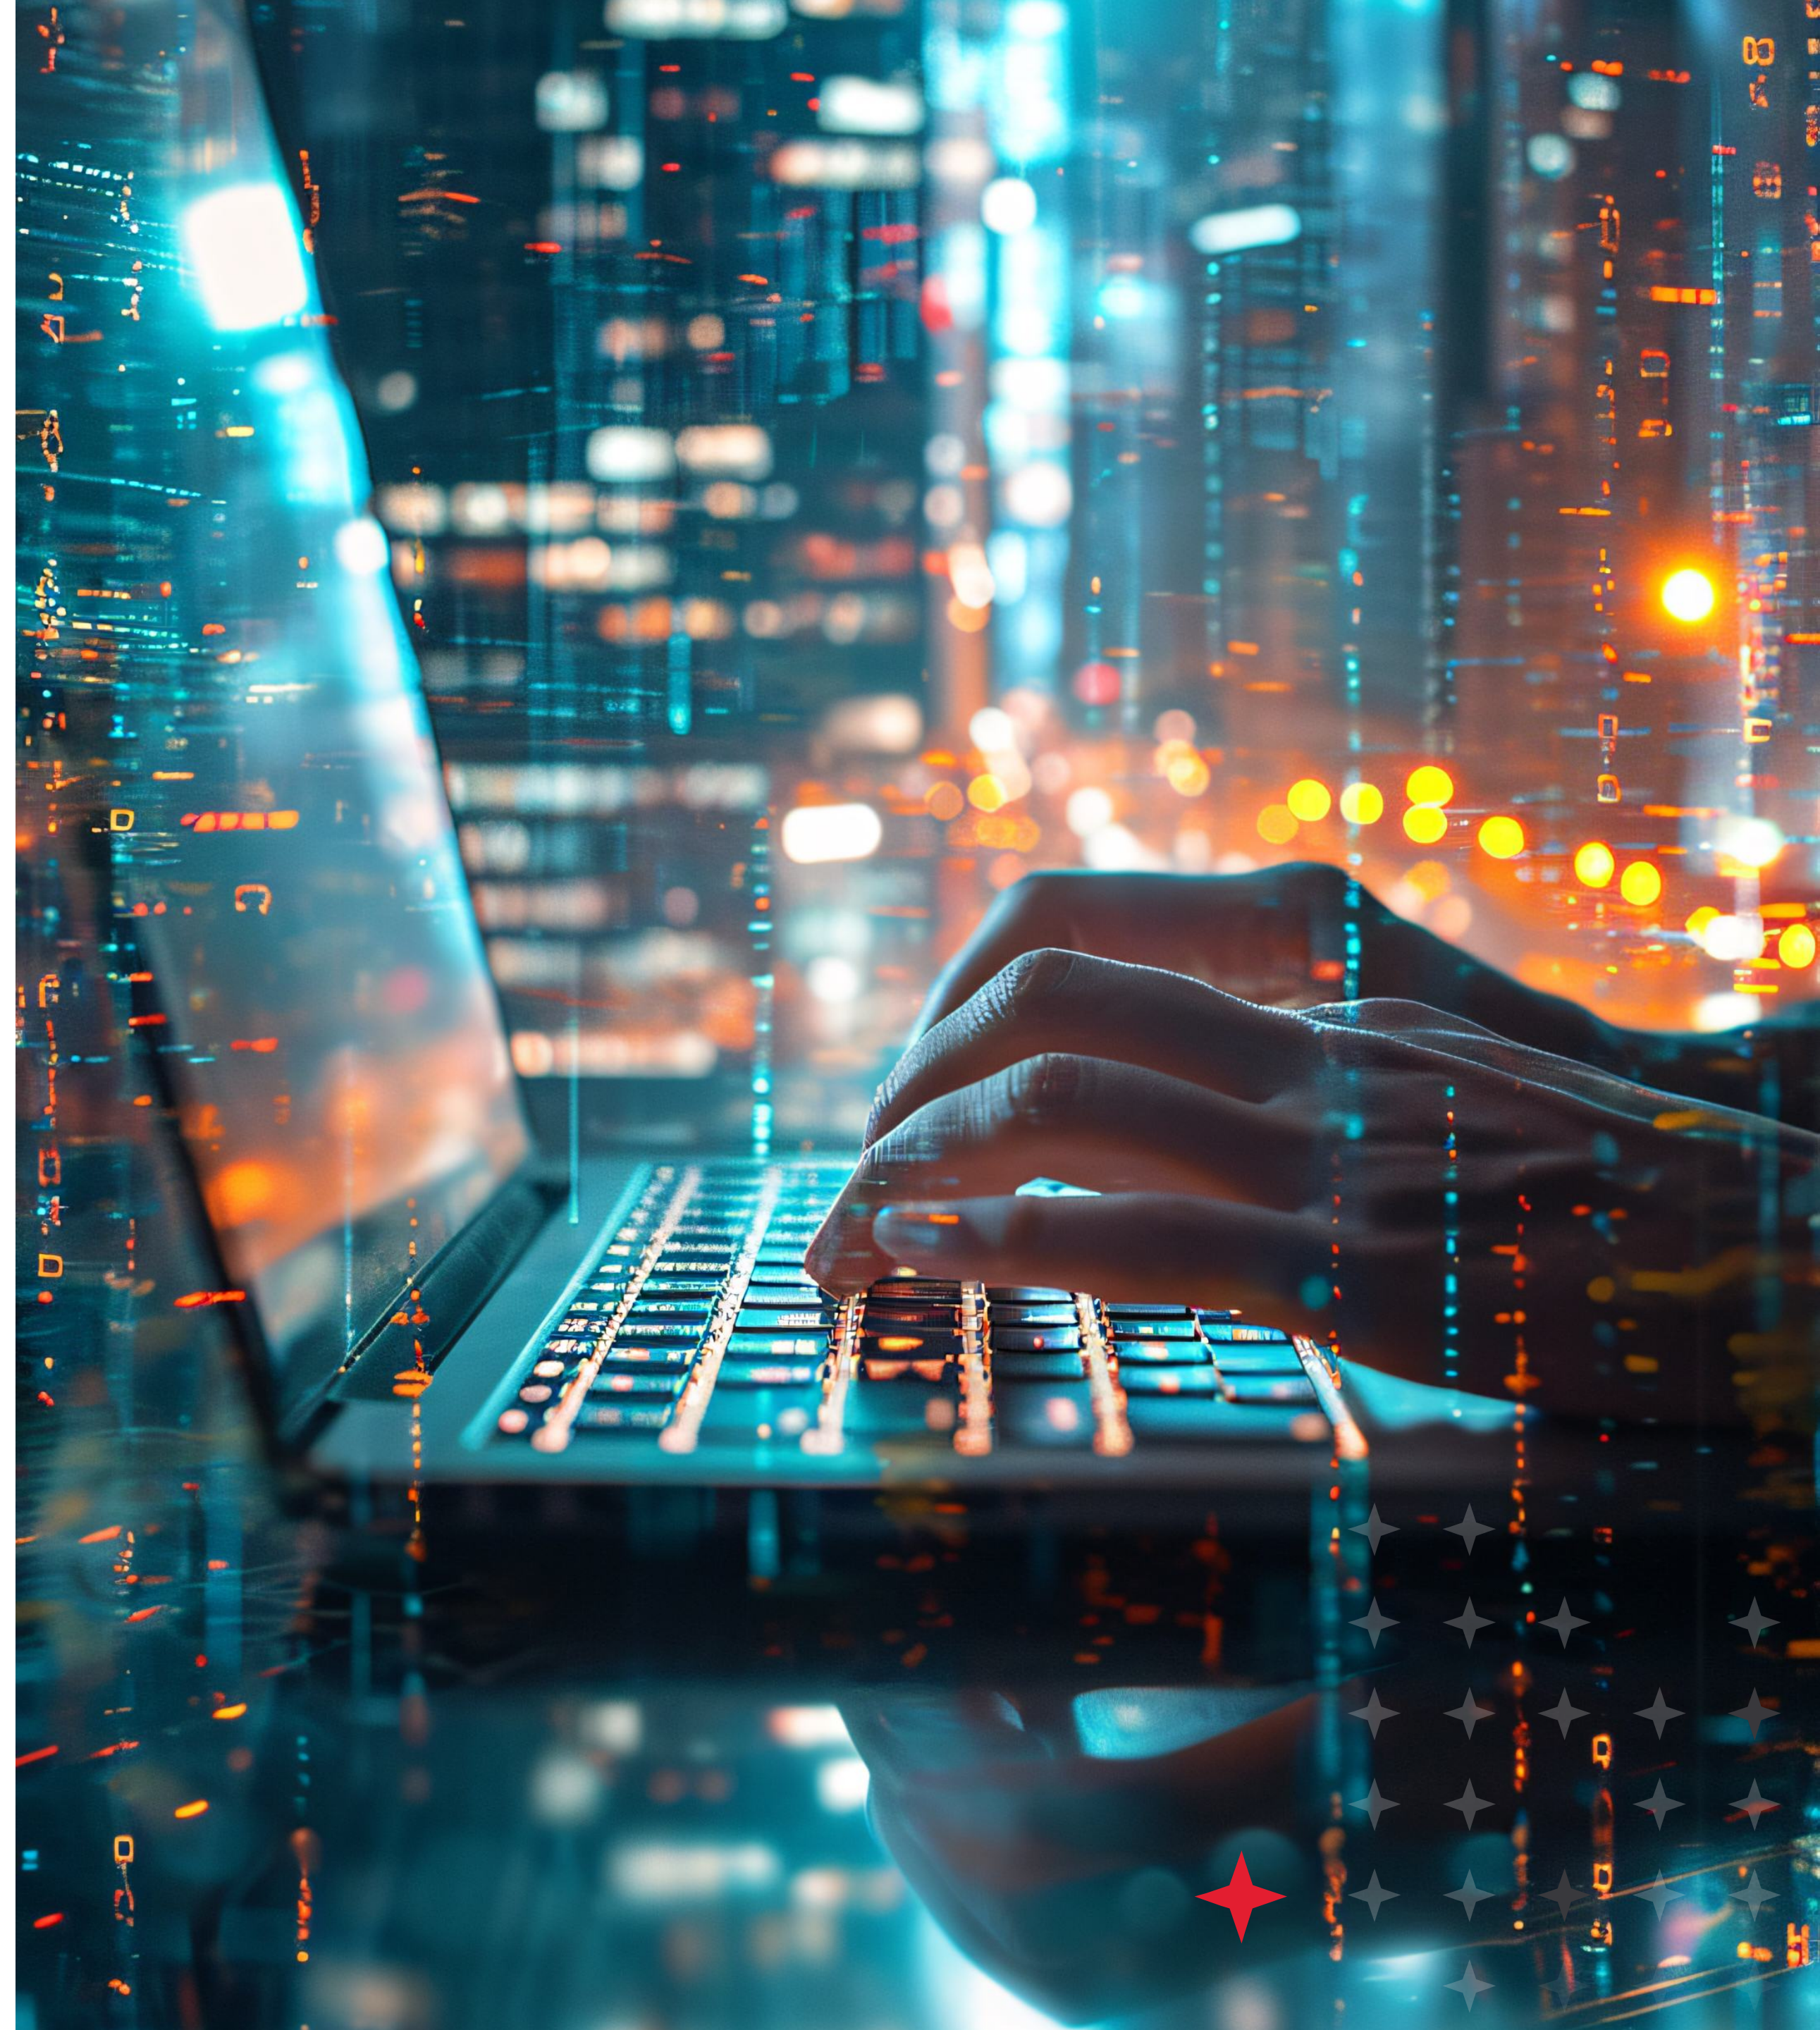

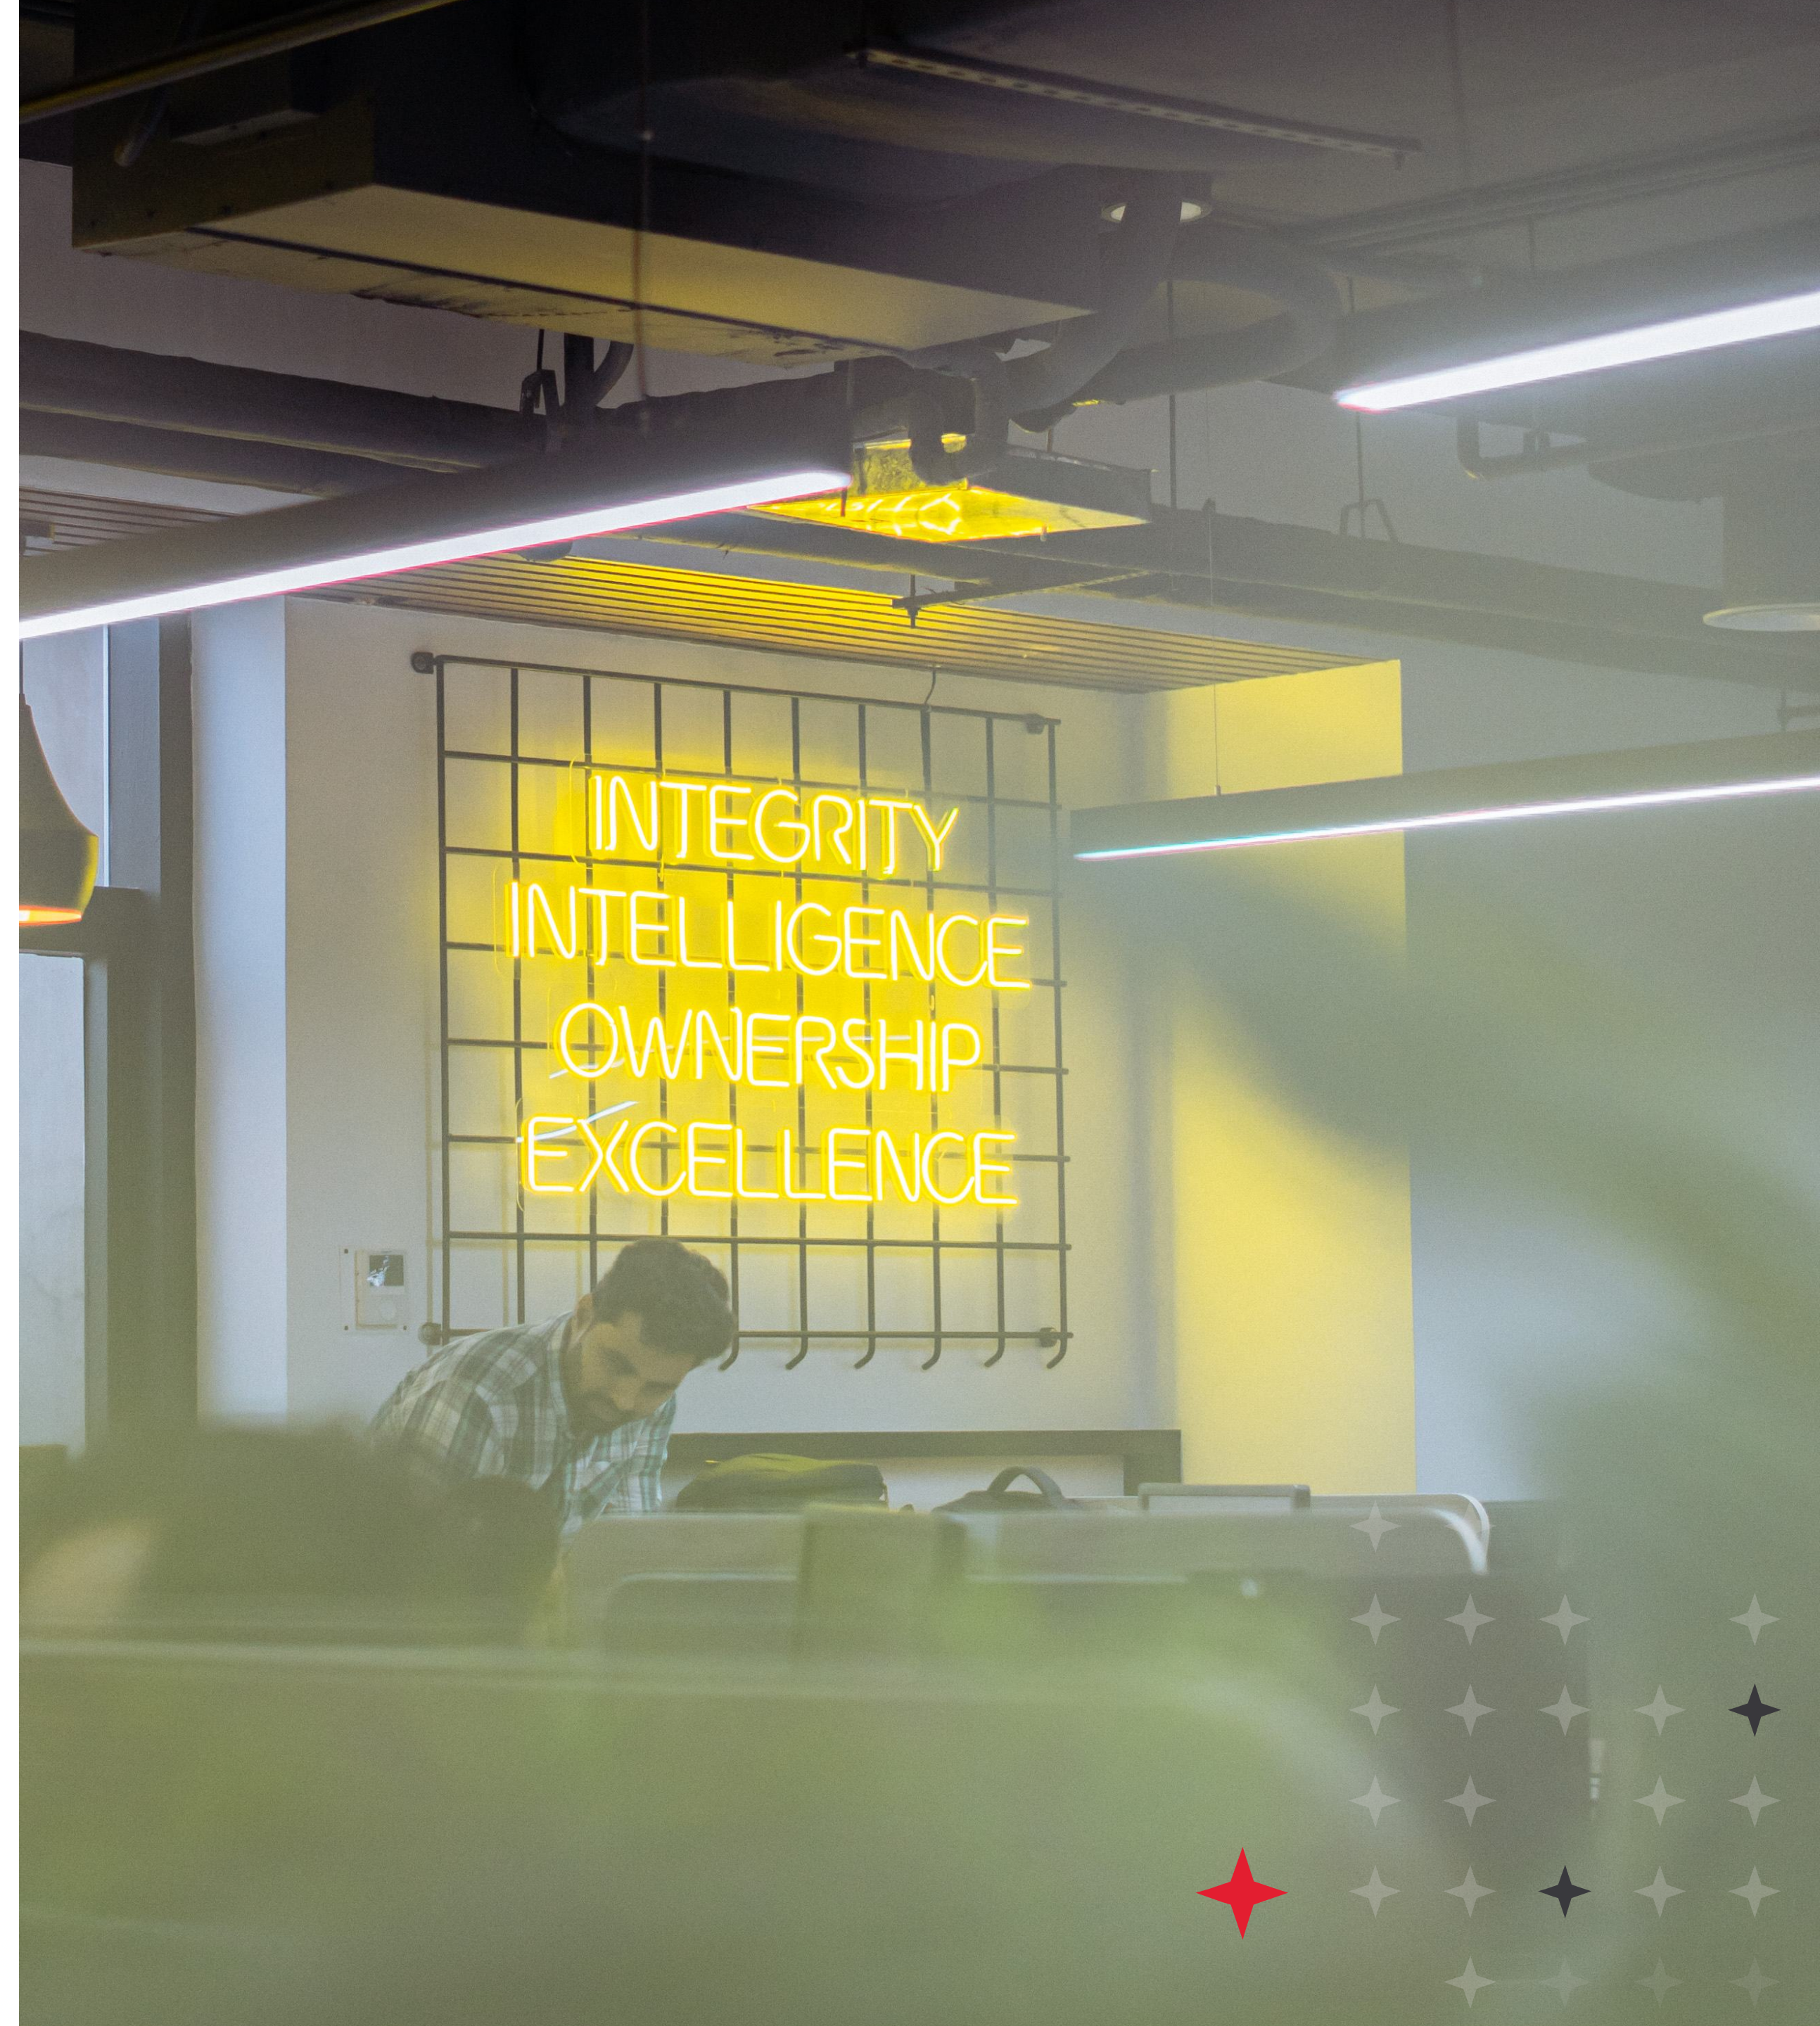

CODENINJA

Vision

our vision is to forge an equitable future in technological exchange, catalyzing innovation to address some of the most complex challenges in global markets.

Philosophy

at codeninja, our philosophy is anchored in our commitment to create exceptional products and services for our clients. we embody originality, disruptiveness, and contrarianism, going against the status quo to innovate at our core, ensuring that we aim to address some of the most pressing issues in the world today, i.e., climate change, world hunger, cancer, etc., turning ethical challenges into opportunities while being considerate and responsible for the long-term impact.

- **Democratization of Technology**

- **Originality and Contrarianism**

- **Compassion and Empathy**

- **Celebrating Diversity**

Industries We Have Transformed

CodeNinja Caters To Multiple Sectors, Delivering Bespoke Solutions For Diverse Industries Across The Globe With Its Extensive Expertise.
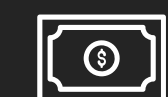

- Healthcare
- Oil & Gas
- Insurance
- Logistics & Transportation
- Finance

- Construction
- Telecommunication
- Banking
- Ecommerce & Retail

FMCG - Industry

40%

Boost in logistics efficiency and minimization of food waste for FMCGs through GAI

Healthare - Industry

300 Sec.

Decrease in emergency frontline response through revolutionary Healthtech to save lives

Pharmaceuticals - Industry

20%

Acceleration in drug discovery cycle for pharmaceuticals through AI-enabled DNA sequencing models

Empowering Enterprises Across Industries with Agile Transformation

Logistics - Industry

15ppt

Decrease in labor cost by leveraging AI-engineered logistics solutions

Energy - Industry

30%

Increase in energy output by creating sustainable power through IoT enabled smart solar panels

Our Presence Across the Globe

Distributed & Multi-Location Teams

codeninja combines deep domain specific capabilities with technical vendor-independent expertise and data readiness frameworks to help enterprises across various industries to innovate faster, remain relevant, and build better products and services.

Nearshore Development Capabilities In Las Condes Chile

Strategic Proximity Innovation Center In Riyadh, Saudi Arabia

AI Capability Center in Austin, Texas

Core Development Hub in Lahore, Pakistan

CODENINJA

Our Central Platforms

our role as proactive problem definers, rather than reactive problem solvers

CodeNinja leverages its central platforms, such as hyper and the codeninja knowledge graph, to integrate situational, vertical and domain tuned intelligence into product development and services.

HYPER

Bringing People, Data And Technology Together To Transform Ideas Into Life

hyper is a rapid application development platform driven by ai, designed to leverage the ideas of entrepreneurs and start-ups, facilitating the journey of creating a minimum viable product without dependence on coding.

Where Ideas Are Built

HYPER

Who Can Leverage Hyper?

A Rapid Application Development Platform Designed For Visionaries Unbound From Limitations, For Innovators And Revolutionaries.

Entrepreneurs

For The Solo Warriors Charting Unknown Territories, Hyper Offers A Powerful Ally. It Simplifies The App Development Process, Allowing Entrepreneurs To Swiftly Bring Their Visions To Life, Empowering Them To Compete In Ever-Evolving Digital Landscape.

Startups

Hyper Is The Right Fit For Start-Ups Aiming To Disrupt The Market. It Accelerates The Creation Of MVPs, Facilitating Quicker Iterations And Feedback Cycles To Secure Funding And Validation For Their Idea.

Enterprises

Enterprises Are Built To Focus On Efficiency, Aimed To Tackle Complex Challenges Without Exhausting Their Resources. This Is Where Hyper Comes In, Empowering Leaders With Instant, Effective Solutions, Ensuring Agility And A Competitive Advantage.

Discover How Hyper Transforms Your Ideas into Life

https://www.youtube.com/watch?v=cOKfMPAxTUQ

We Will Build It For You

Our Team Of Dedicated Rapid Application Development Experts Can Help To Leverage The Platform To Build A Market Ready Product. Supercharge Your Journey With Hyper With Confidence Ensuring Constant Innovation, Proactive Monitoring And Governance Resulting In Accelerated Time To Market.

- Enterprise-Grade Compliance
- Harnessing AI for Simplified Development
- Accelerated Time to Market
- Iterative Testing for Scalability
- Enhanced Technical Support
- Cost-Effective Innovation
- Powered by Visual Brilliance

Creating A Marketplace For Saudi Brands and Content Creators: The PushBrands Story

PushBrands, A Startup Based In Saudi Arabia, Identified A Significant Market Opportunity To Develop A Platform That Connects Brands With Content Creators. HyperSquads Developed A Modern, User-Friendly Platform That Propelled The Startup To Build A Significant Brand Presence Within The Industry Through:

Owned Digital Platform

A Modernized, User-Interface For Customers With Key System Integrations, Helping Enhance The Consumer Experience And Engagement.

Enterprise Web Application

An End-To-End Platform Enabling Content Creators And Brands To Connect, Collaborate, And Monetize Their Efforts.

Administration Application

A Robust Application To Streamline Processes And Enable Proactive Governance With User Management Features And Actionable Insights.

MKHDOOM

From Ideation To MVP: Building A Saudi E-Logistics Powerhouse With Hyper

A Growing E-Logistics Startup From Saudi Arabia Had Been Seeking To Modernize Its Core Application And Build A Transformative Product That Would Enable A Competitive Advantage For Them.

HyperSquad Experts Leveraged The Platform's AI Capabilities To Build An MVP That Helped The Startup To Leverage:

A Multi-Modal Unified Platform

Integrating Air, Sea, And Road Transportation Operations Into A Single Platform.
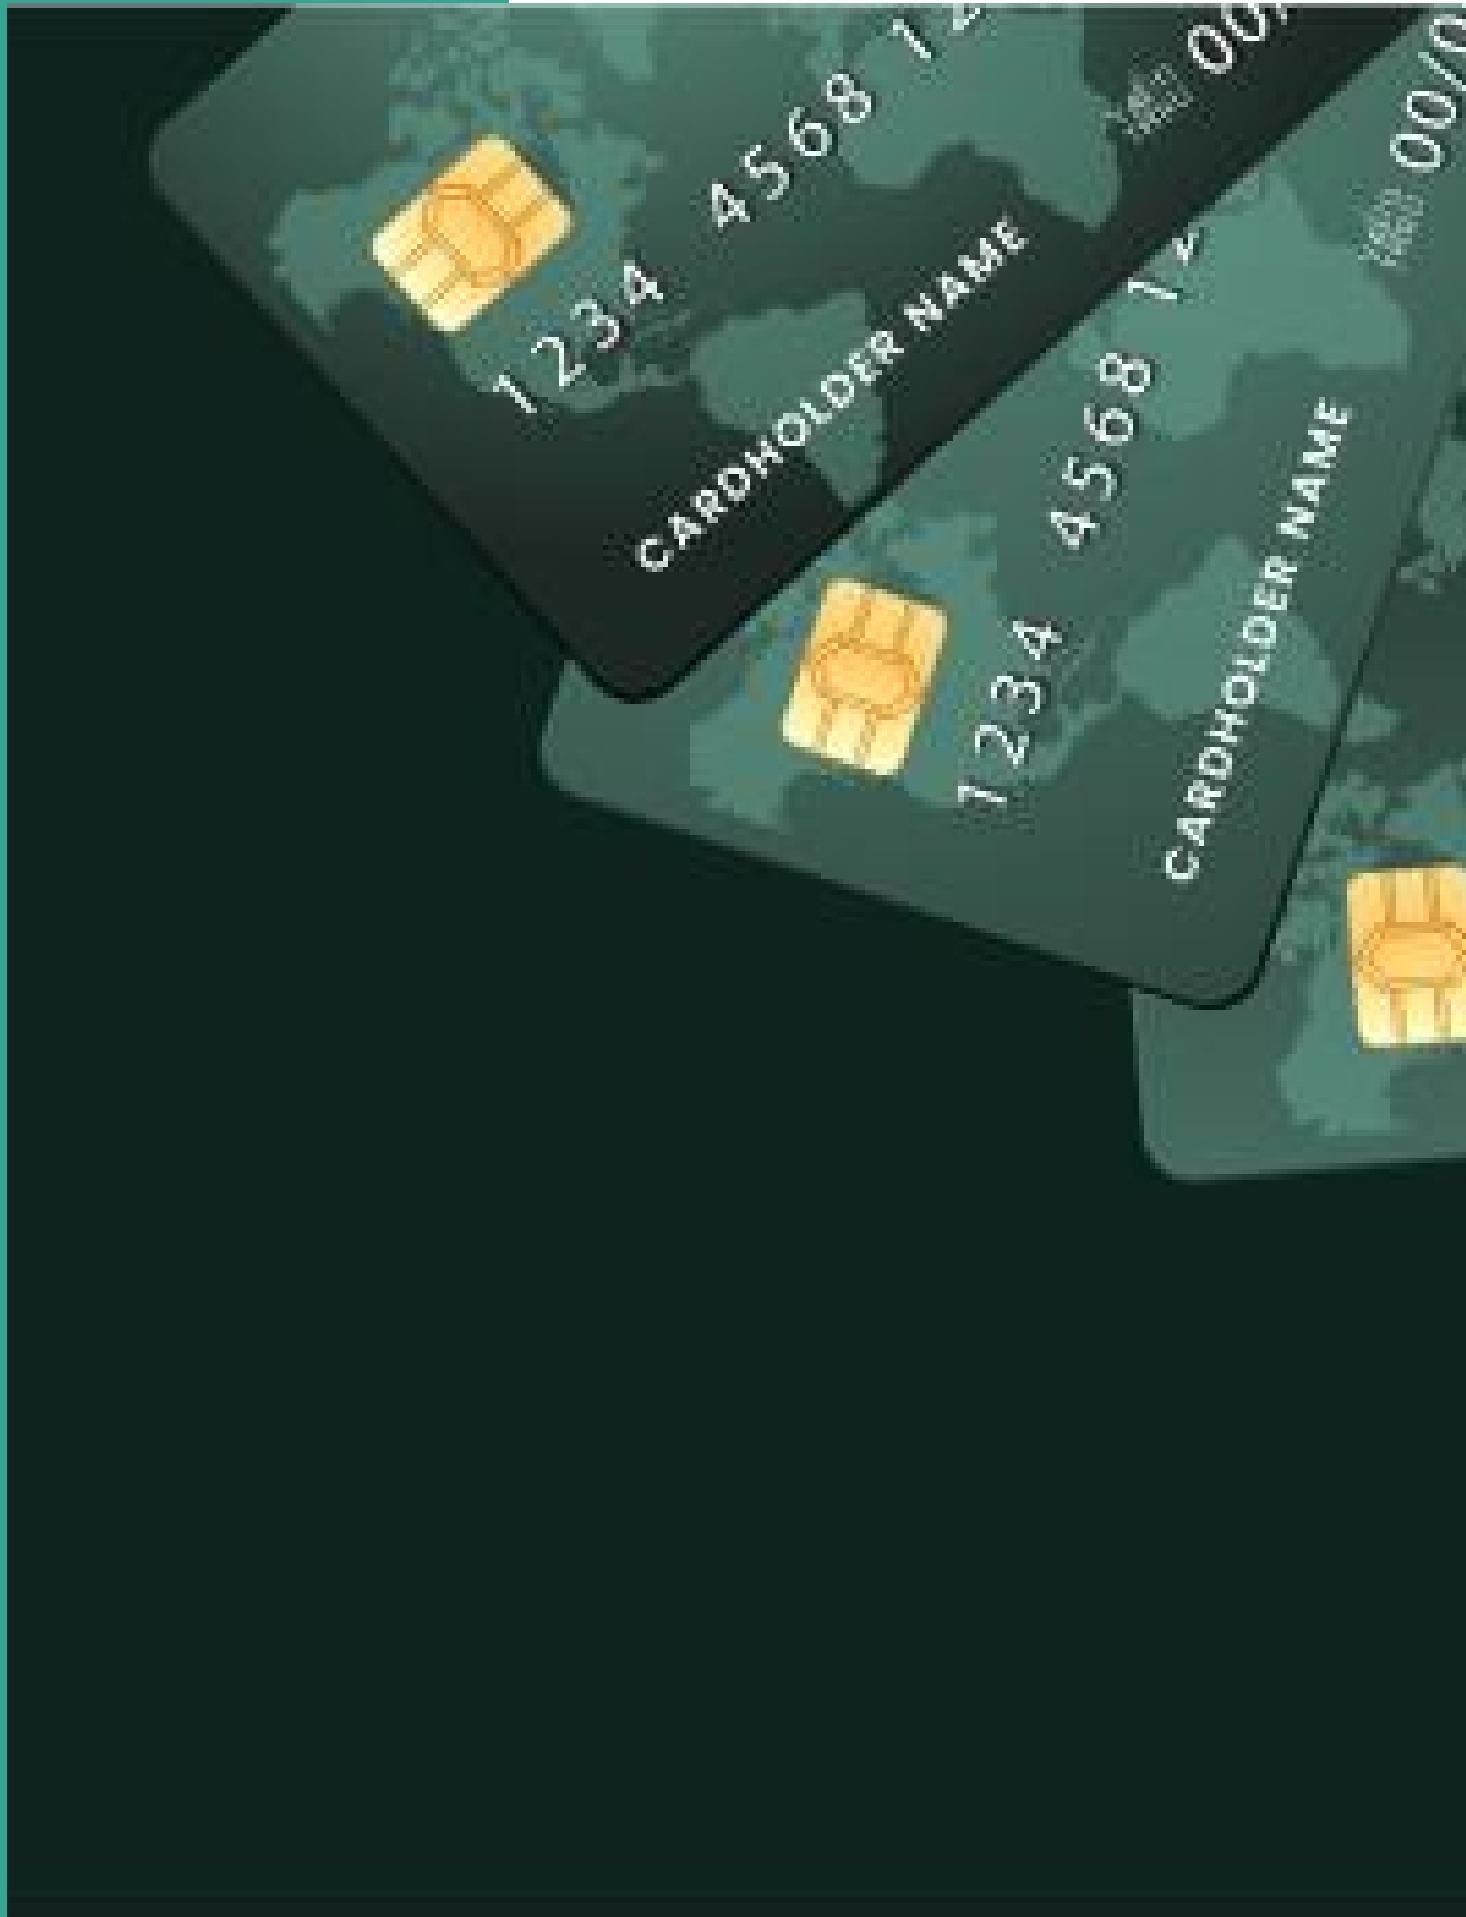

Express Delivery Fulfillment

Creating A Fast And Reliable Last-Mile Delivery Add-On With Real-Time Tracking.

Intelligent Freight Management

Enabling Streamlined Booking, Tracking, And Cost Optimization With AI-Powered Recommendations .

On-Demand Warehousing

Flexible Storage Solutions Allowing Businesses To Scale Capacity Based On Needs.

Simplifying Credit Card Selection: Truffle's Strategic Innovation with Hyper

Truffle, a startup for credit card seekers in Saudi Arabia, aimed to revolutionize its user experience. The HyperSquads experts harnessed their domain-tuned intelligence to build three core applications for Truffle including:

Streamlined Card Exploration

An intuitive platform that allows users to explore credit cards with filters and categories tailored to their preferences.

In-Depth Card Comparison

A Comprehensive tool to compare fees, terms, and benefits to make informed decisions.

Efficient Card Management Panel

A robust application to streamline processes and enable proactive governance with user management and actionable insights.

Truffle's transformative journey with RAD platform resulted in:

- **60% Reduction in Development Time**
- **80% Workload Automation**
- **50% Boost in Product Development Efficiency**

<> CODENINJA

Build By CodeNinja

build by **codeninja** is end-to-end managed tech delivery units strategically placed in emerging markets that powers the work of codeninja. we place technical expertise and deep industry knowledge alongside change management know-how to deliver modern technology products and embed new ways of working

Workable Talent Cloud

integrating workable, test guerrilla, and wecp, accelerates hiring by **66%** and reducing cost by **30%.**

Industry Agnostic Solution Architects With A Vendor Neutral View Point

We believe in a vendor-neutral approach, our global network of technical experts, strength in ecosystem relationships and the capability to innovate positions us to deliver value-added offerings.

In 2014, our partners conducted a groundbreaking case study at UT Austin, revealing that there is $100 trillion worth of unoptimized physical infrastructure worldwide, inspired the creation of CodeNinja AI in a mission to optimize world's Digital and Physical infrastructure using software, AI and Global team of knowledge workers.

CodeNinja Ai

(Use Case Alignment Framework to realize value)

Accelerate your generative AI integrations and implementations through Rapid prototyping to find use-case-fit and unlock new value.

We Build unified data frameworks engineering meaningful Ai to accelerate product development and scale organizational capabilities enabling Ai readiness, tailored in accordance with your business goals.

CodeNinja helps you build offshore Ai centers of Excellence by raising talent with hands on experience on LLM models and deep learning algorithms.

Changing The World

CODENINJA

CodeNinja Helped Almarai Roll-Out Conversational Ai

we work with companies like almarai in riyadh to optimize their supply chain operations through conversational ai, helping logistics teams become 40% more efficient and prevent food wastage at scale.
